

## Native Willamette Valley Seed-Updated August 2009

\*\*\* = currently in stock; all other species available fall 2009 unless indicated otherwise  
Minimum purchase for SEED is \$2.50

**PLEASE NOTE:** Heritage endeavors to collect wild (G0) seed on a regular basis to ensure the generation in production does not exceed G2 for perennials and G3 for annual species

Many species are offered only by the once due to the difficulty of growing the species on a large-scale commercial level or we are in the process of increasing the production field

If you would like to know if a particular species is native to your area of Oregon, please consult The Oregon Plant Atlas at <http://www.oregonflora.org/oregonplantatlas.html>

For suggestions on sowing rates and seeding methods, please refer to our Natives Page "Supporting Documents" section

### Abbreviations

Type: a = annual; p = perennial

Habitat: d = disturbed areas; hb = herbaceous bald; mw = mixed woodland; ow = oak woodland; up = upland prairie; vp = vernal pool; wp = wetland prairie

☐ = photo available on web site

Price: TBD = To be determined

## Notes

All seed is commercially grown from wild collected seed. Seed collected under the supervision of our staff botanist.

The most current taxonomic classification is given with pertinent synonyms in parenthesis.
