## Native Willamette Valley Species

Rev January 2010

Available in 1 PLS lb and 1/2 PLS lb increments (actual delivery weight will be more)

Custom mixes available upon request. Mixes are subject to change depending on availability of species. Suggested seeding rates are for drilled seed and are in PLS pounds; the amounts should be doubled for broadcast. Please see Seeding Rates and Sowing Methods for details (under the Native Page "supporting document" section).

For **small plots**, a typical sowing rate is 1 oz/250 ft<sup>2</sup> (about 11 lbs/ac)
