

Heritage Seedlings, Inc. Seed Prices

Native Willamette Valley Species

Rev Aug 2010

Minimum Purchase \$250

NEW FOR 2010, BULK PRICING!!! We have discounted seed available in larger quantities - 5% off the base price for 5-10 lb orders and 10% off for more than 10 lbs. Prices and availability are subject to change, so please check for updates regularly.

Heritage endeavors to collect seed on a regular basis from numerous wild populations to ensure the generation in production does not extend past the second generation for perennials and the third for annuals; and there is a broad genetic representation for each species. We pride ourselves in offering a diversity of forbs, many not readily available. Many species are only available in small quantities due to the challenges of growing them for seed production on a large-scale. These species can still be part of your landscape or restoration project by selectively sowing them in small plots using a garden seeder or hand sowing.

If you would like to know if a particular species is native to your area of Oregon, please consult *The Oregon Plant Atlas* at <http://www.oregonflora.org/atlas.php>

For suggested sowing rates and seeding methods, please refer to our Natives Page "Supporting Documents" section.

Note: Seed Mixes are in separate PDF
