When your clients ask,  
***“What’s new and exciting?”***  
what would you say?

**Check out these profit-makers!**

# First Time Offered!

## *Cornus kousa* Mandarin Jewel®

This striking dogwood will delight your customers twice—first with a profuse crop of brilliant white flowers in May and June, and second with a treasure trove of bright yellow fruit as summer turns to fall. As these fruits mature and ripen, they will shift color to a lush pumpkin orange, while the autumn foliage turns to a pleasing yellow-orange.

This tree will grow up to 20-25 feet tall and 15-20 feet wide, with an upright vase habit. It will thrive planted in full to partial sun in Zones 6-9.

**1-2' Transplants – \$12.65 (10+)**

# First Time Offered!

## *Cercidiphyllum japonicum* Claim Jumper™

Claim Jumper™ is a stand-out plant, right from the start. Its spring foliage is a radiant yellow which intensifies to a golden yellow through the summer, while the new growth is a pleasing rosy pink. This exciting new plant will grow into a beautiful tree and is only the second color form of Katsuratree on the market.

We've tested this all around the country and have found that it benefits from summer irrigation and thrives in more moderate climates, but these exciting colors and beautiful form make it hard to resist! We are the only ones offering this variety, so don't miss your chance to get this great new plant.

**1-2' Large Plugs – \$13.15 (10+)**

**3-4' Transplants – \$17.90 (10+)**

## *Acer truncatum* Main Street®

This gorgeous maple boasts magnificent orange-red fall foliage that will shine all the way down the street. Easy to place with its compact, rounded canopy, this tree will grow 20-30 feet tall, and 14-20 feet wide. Additionally, it's drought resistant, making for easy care. Our crop has excellent form and straight stems that will produce quality, well-structured trees.

These trees will thrive in Zones 4-9.

**1-2' Extra Large Plugs – \$8.85 (10+)**

**2-3' Extra Large Plugs – \$10.85 (10+)**

## *Syringa vulgaris* Tiny Dancer™

For garden center clients who want the fragrance and beauty of a lilac shrub without the size that is traditionally associated with them, Tiny Dancer™ is a great fit. This shrub grows to 10' tall and 3-4' wide, a perfect compact size for a smaller garden. These are precocious bloomers that will invite customers in. The bright lavender flowers bloom in panicles of 4-5 inches and will balance out the foliage splendidly. In addition, the foliage is mildew resistant. Many customers have been astonished to see just two year old plants budding with new flowers—so stock your nursery with Tiny Dancer™ and get ready to impress.

**2 Year Transplants – \$7.05 (20+)**

## *Lindera benzoin* Spicebush

The delicate pale yellow flowers in early spring combined with the dazzling autumn color of this shrub makes this spicebush a stunner. The foliage boasts a pleasant fragrance that will make any garden a delightful place to be. Additionally, customers in the eastern US will find that it attracts the beautiful spicebush swallowtail butterfly. This shrub keeps a small habit, generally growing around 6 feet tall in partial sun to light shade. It does well in wet areas and has great ease of care.

We have a very nice crop this year—blossoming aged, pruned, and multi-stemmed. Don't miss out!
