WHOLESALE CATALOG '25-'26

Cornus kousa 'Summer Gold' PP 22,765

***Cornus kousa* 'Summer Gold'**

We first sold the initial trees of 'Summer Gold' sixteen years ago. We were impressed by the selection and even then believed it had strong potential. We were excited to work with Crispin Silva and support his efforts, though we couldn't be certain the variety would stand the test of the market place.

Today, 'Summer Gold' is recognized by both growers and homeowners as a tree worth making room for. While most flowering trees offer just a few fleeting weeks of interest, the colorful foliage of 'Summer Gold' draws attention for months—from the moment its leaves unfurl in spring like soft yellow blossoms, to the final days of autumn, when the last purplish-red leaf falls from its twig on a gray, drizzly day.

Robust 25' crop of *Acer griseum* in air pruned trays.

HERITAGE

seedlings & liners, inc. _____ Unusual Deciduous Species

Summer' 2025

Dear Friends,

Exciting news! We have new leadership at Heritage, and I've invested in innovative changes that will make you more profit.

Staff:

I re-hired Eric Hammond, our full-time, 20-year experienced propagator as head grower. Eric and I work well together to train and organize our staff with courtesy and professionalism. We hired a talented young lady, Gracie, to re-design and refresh our website to make it more mobile friendly. She'll bring you better and more frequent news about our nursery in social media, and upgrade our presentation with better photography and design. I'm pleased with her inspiring ideas and results orientation. You will be, too.

Equipment:

Last year we invested nearly a million dollars in new greenhouses, potting equipment and tractors. It promotes a safer and more efficient work environment for all our staff so that we get your plants to you with timely and effective communication between our office & field staff, and your key people.

Container Upgrades:

In recent months I led our investment effort with more than \$300K worth of air-pruning pots, including plug trays, #1, and #2 containers. When you open the box or back of the truck you'll see that these innovative containers promote a more fibrous root system than ordinary solid-wall pots. The result? Faster turn times in your nursery or garden center and more profit for you.

Plants:

We continue to lead the wholesale trade with new woody trees and shrubs. Be the first in your market area to offer more than 30+ new listings from us:

- 5 Japanese maple varieties
- Hearts A'Fire® redbud from Greenleaf Nursery
- 2 extremely hardy horse chestnuts from North Dakota State University
- Columnar patio apples and Itoh hybrid peonies from Plants Nouveau
- Tesselaar's Showpiece™ FRAGRANT SHRUB roses

Stay tuned for more exciting woodies to come. We are here for the long run, for you.

ACER

Acer buergerianum

Trident Maple

Small shade tree with a flaky bark. Colorful autumn leaves. Excellent patio specimen or bonsai subject. It is especially well adapted in the South, growing well even in full sun. A University of Georgia and Pennsylvania Horticultural Society Gold Medal Winner.

MP9ci	Re-pot into #1	Zones 5-9 \$2.05 (50)+
-------	-------------------	---------------------------

Acer campestre 'Carnival'

Carnival Hedge Maple

An adaptive species, so its brilliantly white variegated foliage lends flexibility in planting choices. Occasional green side branches are easily removed, but we leave a few to give the plant more photosynthetic ability and increase its vigor. Hard to find in the trade, so book yours early.

#2 4-5' LT BRCH TRUCK ONLY	Re-pot into #7	Zones 4-8 \$2.15 (50)+
----------------------------	-------------------	---------------------------

Acer circinatum 'Pacific Fire'

Pacific Fire Vine Maple

Durability, small relaxed stature coupled with intensely colored twigs and stems make this a desirable shrub. The stems are brilliant red and pink, brighter than Sango Kaku in our garden. .

#1 3-4'	Re-pot into #5	Zones 5-9 \$19.75 (10)+
---------	-------------------	----------------------------

Acer circinatum Three Cheers™ 'HSI2'

Three Cheers™ Upright Vine Maple

A Heritage Seedlings selection, much more upright and tree-like. The dark green foliage is of normal size and shape, but its silhouette is an attractive flame shape, twice as tall as wide with unusually tight branch angles. If you're pruning wild seedlings into tree form, save labor. Upgrade your list to offer this native selection and show your customers the benefit of predictable form in a residential landscape. It offers the prospect of uniformity and lower maintenance in a commercial job also.

#1 3-4' WHIP	Re-pot into #5	Zones 5-8 \$21.25 (10)+
--------------	-------------------	----------------------------

Includes \$1.50 Royalty

Acer circinatum

Vine Maple

Pacific Northwest native. Vine Maple heralds the arrival of autumn as its colors light up the landscape. Best grown in clump form, it lends a pleasing accent to larger trees in a border planting and requires almost no care.

MP9ci	Re-pot into #1	Zones 5-9 \$2.15 (50)+
-------	-------------------	---------------------------

Acer palmatum 'Crimson Queen'

Acer griseum Paperbark Maple

Among the rich variety of cultivated maples, this one is highly esteemed for its peeling tissue-thin coppery bark. Leaves turn scarlet and orange in fall. Easily grown on to larger size despite its propagation difficulty, and VERY resilient in the landscape.

	Re-pot into	Zones 5-8

4-5' TR TRUCK ONLY	#5-7	\$15.55 (10)+

Shipping restrictions may apply

Acer japonicum 'Attaryi' New Fullmoon Maple

This clone, around since the 70's, stands out for its dissected leaves which are little more than veins as they dive to attach to the petiole. It's among the best for autumn color - flaming oranges and red. It has a pendulous, spreading habit. It's hard to bet in the landscape.

	Re-pot into	Zones 5-9
#1 2-3' WHIP	#5	\$16.75 (10)+

Acer Morning Starburst™ 'Morton UW' Morning Starburst™ Maple

Vine Maple x Korean Maple hybrid, with the Korean pollen parent giving this elegant maple its exceptional hardiness. Unblemished by the polar vortex event of late January '19 at the Morton Arboretum near Chicago - minus 20° F low temp. and wind chill to minus 40°F. Attractive bronze foliage and hybrid vigor in the nursery and landscape, combined with its modest size and market-extending hardiness qualify this as a "keeper" maple with predictable performance. Be among the first to make it available to your clients.

#2 4-5' LT BRCH	#7-10	\$27.85 (10)+

Price includes a \$1.25 royalty

Acer palmatum Green Japanese Maple

With its delicate foliage, small crown, and naturally artistic form, it creates an Asian effect in any garden. Fall colors are inspiring in their brilliance. Healthy specimen trees seem to always be in short supply. Our pot-grown seedlings have been kept protected from frost to ensure that your rootstocks are free of Pseudomonas (black stem) blight.

	Re-pot into	Zones 5-9
MP15ci 3/16" caliper	#1	\$1.45 (50)+
MP15ci 1/4" caliper	#2	\$1.65 (50)+
LP18ci 1/4" caliper	#3	\$2.55 (25)+
2-3' TR	#5	\$8.85 (10)+

Acer palmatum pre-bonsai Pre-bonsai form Green Japanese Maple

Select seedling strain with extremely short internodes, mostly 8-10 inches tall. No graft scar, vigorous, easy to re-establish with moss in bonsai trays as a mini "forest" for quick resale at high profit.

	Re-pot into	Zones 5-9
MP15ci pre-bonsai	#1	\$6.15 (10)+

Acer palmatum 'Bihou'

Bihou Japanese Maple

A relatively new introduction from Japan, it has bright yellow stems and shares with other bright yellow or red-stem selections susceptibility to Pseudomonas stem blight if it is fertilized too late in the growing season. Go easy on the nitrogen and protect young grafts indoors for the first few winters until the recent season's growth hardens off.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

Acer palmatum 'Bloodgood' Bloodgood Japanese Maple

This is one of the hardiest and most popular of all the upright cultivars of Red Japanese Maple. Field grown plants have heavier caliper; container-grown plants have less transplant stress. Both gives rapid spring regrowth.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer pal. var. dis. 'Crimson Prince'

Crimson Prince Japanese Maple

For those of you who know the old cultivar 'Crimson Queen', this is an improved selection. It is a red laceleaf, fading to shades of green in the summer. 'Crimson Prince' grows much faster than 'Crimson Queen'.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

Acer pal. var. dis. 'Crimson Queen'

Crimson Queen Japanese Maple

Among the oldest and most widely recognized of weeping red Japanese maples: has stood the test of time for generations and earned the Royal Horticultural Society's Award of Garden Merit. If you want a red weeper that will always please and many gardeners recognize, this is your variety. Holds its color well into summer and is a consistent profit maker.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH	#7-10	\$27.90 (10)+

Acer palmatum 'Emperor I' Emperor I Japanese Maple

A fine cultivar distinguished by its bright red foliage. Whereas the more widely available cultivar, 'Bloodgood' has a maroon color, this one is redder, especially when the sun shines through the leaves. Leaves emerge two weeks later than 'Bloodgood'. Milwaukee, WI city arborists consider 'Emperor I' hardy within their urban area.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer palmatum* 'Fireglow'**

Fireglow Japanese Maple

One of the less familiar cultivars, 'Fireglow' has red leaves and looks somewhat like 'Bloodgood' but grows slower and denser. It is redder during the summer, becoming purple/red with green before it takes on autumn red color again.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer pal. var. dis.* 'Inaba shidare'**

Inaba shidare Japanese Maple

Among the best of the weeping red laceleaf maples for its leaf color retention in summer, its scorch resistance, vigor, red and hardiness. Always popular and attractive.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer palmatum* 'Japanese Sunrise'**

Japanese Sunrise Japanese Maple

This Coral Bark maple has a dynamic personality as it seems to vary its color more than older selections. In the winter the new stems are coral-red to orange and even yellow depending on sun exposure and vigor. It is fairly vigorous, reaching nearly 20 ft. at maturity.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

***Acer palmatum* 'Koto No Ito' New**

Harp String Japanese Maple

In the linearilobum group, it has finely divided leaves, so narrow, its name in Japanese means harp strings. If you observe close, you'll notice the old wood produces leaves with the narrowest blades while new buds produce leaves with broader blades. It's a small tree, to about 6' in ten years. In a breeze the overall effect is of waving bamboo.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

***Acer palmatum* 'Moonfire'**

Moonfire Japanese Maple

Very dark red-black bark and opalescent leaves give this maple a dramatic appearance as the branches curve and twist upward. Its upright growth reaches 15 ft. at maturity. This variety holds its color very well in heat and humidity of Huston, TX. That is quite a recommendation.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

***Acer pal. var. dis.* 'Orangeola'**

Orangeola Laceleaf Japanese Maple

This beautiful gem is more strongly weeping than most other selections of its kind. It goes through a kaleidoscope of reds, greens, and orange all season long.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer palmatum* 'Purple Ghost'**

Purple Ghost Laceleaf Japanese Maple

Attractive red purple leaves with black veins in spring. The colors are intense and the new leaves almost glow before they age to red in summer, and then intense red and orange in autumn.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

***Acer pal. var. dis.* 'Red Dragon'**

Red Dragon Laceleaf Japanese Maple

Unlike most "red" selections this is a more true red. Its color remains vibrant throughout the summer. Smaller than most lace leaf maples, with black bark and a slower growth habit, this maple is a good choice for bonsai or a container.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

***Acer palmatum* 'Ryusen' ^{PP18.501} New**

Ryusen Weeping Japanese Maple

This newer selection from Japan is extremely pendulous with branches dropping nearly vertical as they emerge from their buds. This habit allows the grower great flexibility in shaping the tree. In other respects it is a simple and beautiful Japanese maple with small, green leaves and fine autumn color.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$22.40 (10)+

Price includes a \$2.65 royalty

***Acer palmatum* 'Sango kaku'**

Coral Bark Japanese Maple

This small vase shaped tree offers wintertime pink and red bark on young branches. In cool moist climates it can suffer from blight if it is fertilized too heavily.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer pal. var. dis.* 'Seiryu'**

Seiryu Japanese Maple

The only upright laceleaf Japanese Maple, this one is small in stature and has delicate foliage. Light green summertime foliage; in the fall it becomes a beautiful mix of yellow, orange, and red.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

***Acer pal. var. dis.* 'Tamukeyama'**

Tamukeyama Laceleaf Maple

This lace leaf holds its beautiful purple-red foliage throughout the summer and turns scarlet in the fall. It is especially vigorous in hot climates.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer palmatum 'Tsukasa Silhouette'

Tsukasa Silhouette Japanese Maple

A more recent introduction from Japan, it should become popular for its narrow upright form. Dense green foliage is smaller as compared to seedlings.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer palm. 'Twombly's Red Sentinel'

Twombly's Red Sentinel Maple

Unique upright shape, attractive in many situations where space is limited, particularly close to a building or walkway. Plants in our landscape are more appealing with each passing season. It remains a strong maroon color all summer here in NW Oregon.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer palmatum 'Ukigumo'

Floating Clouds Japanese Maple

In our judgement, the best and most striking of white variegated upright Japanese Maples. A big plus, almost no reversion to green. From a distance the small green, white and pink leaves have an ethereal effect. This conversation item is just perfect to showcase in a shady spot in the garden. This Great Plant Picks selection will eventually reach 16 ft. tall, no surprise there.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer palmatum var. *dissectum* 'Viridis'

Green Laceleaf Maple

This most popular weeping green laceleaf flourishes even in fairly deep shade. Yellow, gold, orange-even some red fall color.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#7-10	\$27.90 (10)+

Acer palmatum var. *atropurpureum*

Red Japanese Maple

One-year plants are perfect for re-potting to grow on for a season; transplants are best for prompt resale. For best branching, lightly pinch the stem tips when they're in tender new growth. An inexpensive alternative to grafted varieties, they are often sold in garden centers in a #1 or #2 pot.

	Re-pot into	Zones 5-8
MP9ci 1-2'	#1	\$3.20 (50)+
3-4' TR	#1	\$13.95 (10)+

 **The Gold Medal Plant Award of the Pennsylvania Horticultural Society**

recognizes trees, shrubs and woody vines of outstanding merit for their superb eye-appeal, performance, and hardiness in Zones 5-7.

Acer palmatum 'Ryusen'

Acer pseudoplatanus
Sycamore Maple

Vigorous and easy to grow in the nursery, this gives the plant an aggressive tendency, especially in rocky, dry conditions where other trees fail. Accordingly, these are offered strictly for rootstock use. This maple has the remarkable trait of a "universal donor" as a rootstock for many, but not all maples. We have even grafted *Acer pentaphyllum* onto it with no sign of long term incompatibility.

	Re-pot into	Zones 5-8
3/16"	#1	\$2.10 (50)+
1/4"	#1	\$2.25 (50)+

Shipping Restrictions Apply

***Acer pseudoplatanus* 'Esk Sunset'**
Esk Sunset Sycamore Maple

"Variegated" doesn't begin to describe this extraordinary cultivar of a species that generally lacks ornamental merit. In addition to the leaves being purple beneath, they are a kaleidoscope of astonishing variegation throughout. It doesn't burn in full sun, and is exceptionally drought resistant and cold hardy. Whether placed as an accent against larger, darker trees, or as a specimen up front, it will elicit comments from all who enjoy seeing it for the first time. This goes on your 'buy list'. You'll be back for more.

	Re-pot into	Zones 4-8
#1 2-3	#5	\$17.55 (10)+
LP21ci	#5	\$14.75 (25)+

Shipping Restrictions Apply

Acer pseudosieboldianum
ssp. *takesimense*
Ullong Korean Maple

From an island in the Sea of Japan, this tree is strongly upright with a central leader. It is not as hardy as seedlings grown from Northern China seed, but is so easy to grow as a nursery plant. This Korean Maple will grow fairly narrowly to 25-40 ft. tall. Good fall color.

	Re-pot into	Zones 6-9
#1 3-4' WHIP	#5	\$19.75 (10)+

Acer rubrum
Red Maple

Among the best known of eastern North American trees because it is well adapted. We offer these seedlings as an alternative to more expensive named selections.

	Re-pot into	Zones 3-9
LP21ci 1-2'	#3	\$2.40 (25)+
3-4 TR	#5	\$11.80 (10)+

***Acer rubrum* 'Bowhall'**
Bowhall Red Maple

Selected more than 75 years ago, but still among the best of street trees for areas with summer moisture and acidic soil. Its modest growth rate helps to form a tighter-branched, more tidy tree than ubiquitous 'Armstrong'. Not as columnar as the variety, 'Columnare'.

	Re-pot into	Zones 3-9
#1	#5-7	\$13.95 (10)+

***Acer pseudoplatanus* 'Esk Sunset'**

Upgraded Air Pruning Pots

healthier and stronger roots!

Roots the most important part of every plant we ship you. They are critical to the success of trees, in both the short and long term. Bad root systems compromise your profits and the future urban forest.

Root faults start in the nursery with the containers trees grow in and how young plants are handled and potted. Solid-walled containers allow circling and kinked roots to develop. Planting too deep buries the root collar, while stuffing a long root into a shallow hole creates a j-root. Any combination of these might lead to crossing or girdling roots at the future planting site.

This year we transitioned our entire lineup of #1 and #2 into air pruning containers to compliment our already existing program of air pruned seedling trays. This means the great quality trees you've come to expect from us just got better!

Air root pruning: exposing root tips to the air outside the growing media naturally prunes the root tip. This eliminates root circling and promotes a better root structure, causing the plant to grow new roots in the growing media, producing a more fibrous root system that will perform better for you.

Potted Trees:

We only use air pruned seedlings or cuttings into #01 and #02 containers that utilize air root pruning. When we can, we raise the plants up, potting the root collar even above its original position. This starts the tree with an advantage.

- Slotted bottoms with solid sides, always elevated off the ground
- Slotted sides and bottoms, always elevated off the ground

Seedling Trays and Plugs:

Air pruning is a gamechanger for species that grow with tap roots like oaks and black gum and those with course roots like hornbeam and beech.

- Open bottoms
- Slotted sidewalls
- Elevated for air flow beneath

Acer × 'Red Dawn'

Acer rubrum 'Red Rocket'

Red Rocket Red Maple

Columnar form like 'Bowhall', a better choice for the North due to exceptional cold hardiness. Deep red autumn color.

	Re-pot into	Zones 3-7
#1	#5-7	\$13.95 (10)+

Acer saccharum

Sugar Maple

Used as a specimen native tree, this is an American classic. Potentially imposing in mature size - to 75 ft. tall. Many cultivars have been selected and these are always popular, handsome trees.

	Re-pot into	Zones 3-8
LP21ci 3/16"	#3	\$2.80 (25)+

Acer sac. 'Green Mountain'® 'PNI0285'

Green Mountain® Sugar Maple

Well known cultivar having better heat and drought tolerance than most other varieties. Fall color is a good orange/red in the far North, but it tends to be yellow elsewhere. Forms an upright oval to 50 ft.

	Re-pot into	Zones 4-8
#1 3-4'	#5-7	\$19.60 (10)+

Price includes a \$.50 royalty

Acer saccharum 'Monumentale' *New*

Columnar Sugar Maple

Extremely narrow, or only a leader, what is the best way to describe this clone? Slower growing, it only gets a couple feet wide and grows as a narrow tight column of foliage. Turning gold in autumn.

	Re-pot into	Zones 3-8
#1 1-2'	#5	\$17.25 (10)+

Acer saccharum 'Sugar Cone' *New*

Sugar Cone Sugar Maple

This tree has everything going for it. Compact, dense growth, modest size coupled with ideal cone form make it an ideal tree. And it has reliable autumn color in the fire range, plus deep cold hardiness.

	Re-pot into	Zones 3-8
#1 3-4'	#5	\$21.15 (10)+

Acer shira. Moonrise™ 'Munn 001' PP16.718

Moonrise™ Shirasawa Maple

Knockout pink-orange new growth on lime-yellow older growth makes Carl Munn's selection an enduring contribution to horticulture in a field already crowded with too many marginally different Japanese maple varieties. Moonrise is very hardy and a much tougher plant than 'Aureum', withstanding -26°F in Chicago and also adapted if in the shade in Dallas/Fort Worth. The amazing orange spring and summer foliage sets this selection apart as absolutely different. Order early to assure an annual supply.

	Re-pot into	Zones 5-7
#1 3-4'	#5	\$20.75 (10)+

Price includes a \$1.00 royalty

Acer tegmentosum 'Joe Witt' *New*

Joe Witt Manchu Striped Maple

This clone is an unforgettable sight during winter, its twigs and branches being pure white and even large trunks prominently striped white all the way to the ground. It evokes a chalk drawing look in the landscape. The coloration is from wax covering the tree. It has a broad growth habit.

	Re-pot into	Zones 4-8
#1 3-4'	#5	\$19.75 (10)+

Acer tegmentosum 'White Tigress' *New*

White Tigress Striped Maple

White stripes cloth the smooth dark green trunk of this upright growing clone. It isn't as showy as 'Joe Witt' but has taller and narrower habit making it a little easier to fit into many landscapes.

	Re-pot into	Zones 4-7
#1 3-4'	#5	\$19.75 (10)+

Limited Availability

Acer truncatum

Shantung Maple

Resistant to drought and polluted air, this maple is gaining recognition as a promising ornamental. Its growth rate is relatively fast but it doesn't become as large as Norway maple. Its small size, hardiness, appealing Sweetgum-like leaves and brilliant fall color make it a logical candidate for high pH soils or for areas where a tough, yet highly ornamental tree is needed.

	Re-pot into	Zones 5-8
MP9ci	#1	\$3.10 (50)+

Acer × 'Red Dawn'

Red Dawn Maple

Though some list this as a selection of *Acer shirasawanum*, we feel confident it's a hybrid. The foliage color is fantastic. Red, wine, and a little silver from the hair on the leaf all combine to make it stand out in its distinctive appeal. It is pleasingly upright, a truly great new nursery and garden plant.

	Re-pot into	Zones 5-9
#1 3-4' WHIP	#5	\$19.75 (10)+

AESCULUS

Aesculus glabra

Ohio Buckeye

Medium-to-large tree of rounded shape. Attractive foliage is sometimes affected by disease; fall color is variable, from yellow to orange mixed with red. The new selections offer major advantages by comparison: consistency of fall color, disease resistance, and smaller stature.

	Re-pot into	Zones 3-6
1/4"	#1	\$2.85 (50)+

Aesculus glabra Early Glow™ 'J.N. Select'

Early Glow™ Ohio Buckeye

Aptly named, brilliant orange red fall color calls immediate attention to this smaller globe-shaped selection (25') from way up north in Wisconsin. If you grow this plant, you share in the poetic, incandescent spirit of the man who selected it, our dear friend Mike Yanny. New for us, we're impressed.

	Re-pot into	Zones 3-8
#1	#5	\$18.55 (10)+

Price includes a \$1.00 royalty

Aesculus glabra Lavaburst® 'LavaDak'

Lavaburst® Ohio Buckeye

Compact, narrowly upright in form - maturing at under 30 feet by half that in spread. Foliage does not scorch as much as seedling Ohio Buckeyes, lending it bright green summer color followed by bright orange-red in the fall. Selected in North Dakota, it is extremely hardy and tolerant of higher soil pH levels. A unique, useful selection for cold climates where a compact tree with brilliant fall color works best.

	Re-pot into	Zones 3-6
#1	#5	\$19.05 (10)+

Price includes a \$1.50 royalty

Aesculus hippocastanum

Horsechestnut

Dominating mature size limits this tree to large open areas. Often used as a rootstock for *Aesculus × carnea hybrids*, which are smaller and more disease resistant.

Aesculus parviflora

Bottlebrush Buckeye

A large shrub that spreads from root suckers, it is usually no more than 10 ft. tall. Tolerates deep shade and still flowers reliably. Although its suckering habit and small stature might suggest a tender nature, it is remarkably hardy, tolerating winter lows to -31°F. Rarely found in quantity in the wholesale trade, this is a choice American native to reserve for your best customers. Reliably yellow leaves in autumn.

	Re-pot into	Zones 4-8
LP40ci	#3	\$11.30 (25)+
#1	#5	\$16.50 (10)+

Aesculus pavia

Red Buckeye

To lump this distinguished small tree with more coarse horsechestnuts is inappropriate, as it has tremendous ornamental appeal. Shiny, scorch-free foliage and bright red spring flowers command attention. Tolerates heat well, stays small, and blooms freely even in shade. Among *Aesculus* this one is an aristocrat that merits far wider use in the trade. Truly a "Wow!" plant.

	Re-pot into	Zones 5-8
6-12"	#1	\$3.15 (50)+

Aesculus x carnea 'Fort McNair'

***Aesculus x carnea* 'Briotii'**

Briotii Red Horsechestnut

A hybrid of *Aesculus hippocastanum* and *Aesculus pavia* with intermediate characteristics. Best used in a broad, open landscape so it doesn't become crowded. Flowers are an attractive pink, splashed with yellow inside. Generally no fruits are produced, a big maintenance plus.

	Re-pot into	Zones 4-8
#1	#5	\$16.50 (10)+

***Aesculus x carnea* 'Fort McNair'**

Fort McNair Red Horsechestnut

Tree-like, 30-40 ft. tall; rounded pink flower spikes with yellow throats in spring. Performs best in cooler climates.

	Re-pot into	Zones 4-8
#1	#5	\$16.50 (10)+

***Aesculus x neglecta* 'Erythroblastos'**

Sunshine Horsechestnut

This plant just screams "spring time is here" with pink new growth. The leaves transition from pink to yellowish and then give way to green and yellow flowers. It's a small tree or even a large shrub so it's a good candidate for smaller gardens.

	Re-pot into	Zones 3-8
#1	#5	\$16.50 (10)+

AMELANCHIER

Amelanchier x grandiflora

Autumn Brilliance®

Autumn Brilliance® Serviceberry

Excellent trade name recognition because it's a clearly superior clone across a wide variety of Midwest and Eastern US climates. Grows to 20-25 ft. and develops reliable red-orange autumn color. The showy multi-colored fruits are relished by birds, and it never becomes obtrusive in the landscape border. What a gem!

#2 TRUCK ONLY	#7-10	\$19.30(10)+

Prices include a \$0.90 royalty

Amelanchier x grandiflora

'Princess Diana'

Princess Diana Serviceberry

All of the serviceberries are flexible additions to the landscape. Early spring, apple-like flowers are rich native pollinator favorites, essential to sustain native bird populations. Again in fall, the tiny currant-sized abundant fruit sustains birds and other critters that need to fatten up before winter. Since the hybrid is not as aggressive as Allegheny or Downy Serviceberry, this popular group fits a wide variety of commercial and home landscapes. This diminutive selection seldom gets bigger than 12-15 feet tall, nearly as wide. And who can resist the evocative, delicate charms of even the name?

	Re-pot into	Zones 4-8
LP18ci	#3	\$6.50 (25)+

ASARUM

Asarum caudatum f. *album* White-flowered Western Ginger

Forming dense evergreen mats, this super ground cover shines all year round in shade. Adaptable to some drought, it looks even better if given a little summer irrigation. Short, to only 4 in. tall.

	Re-pot into	Zones 7-10
MP9ci	#1	\$3.10 (50)+

ASIMINA

Asimina triloba Pawpaw

Widely adapted and tolerant of wet soils, our US native Pawpaw has been under-used as a landscape tree but is attracting substantial attention. This genus is the exclusive forage plant for native Zebra Swallowtail butterfly larvae in the East. Nodding purple flowers are unlike those of any other American tree - curious with their three-lobes, pollinated by flies. The perishable fruits have a memorably delicious taste, are nutritious, and resemble the tropical mango. Bold leaves turn a pleasing yellow in autumn. Our seedlings are greenhouse-grown in root-pruning containers for excellent transplant success.

	Re-pot into	Zones 5-8
LP18ci	#3	\$3.45 (25)+

BETULA

Betula nigra Dura-Heat® 'BNMTF' Dura-Heat® River Birch

Holds its yellow autumn leaves a full month longer than Heritage®. Has glossier leaves, a tighter habit, and better heat tolerance than Heritage® in Zone 9. You already know Heritage® is a money-making super tree. Try this one for comparison, especially if you're in the Gulf States.

	Re-pot into	Zones 5-9
MP9ci	#1	\$4.95 (50)+

4-5' TR TRUCK PREF.	#7	\$21.65 (10)+

***Carpinus betulus* 'Pinoccheo'** **Pinoccheo European Hornbeam**

Much less congested branch structure than seedlings or the varieties 'Fastigiata' & 'Frans Fontaine'. Observant nurseryman Lanny Rawdon of Arborvillage in Holt, MO reports that it's a robust grower in the Midwest, with a strongly upright form as a young tree. It's distinctly pyramidal in winter branch structure, and clonal propagation assures its predictable landscape uniformity, Lanny tells us it survived -35°F in the harsh winter of 1983. This is a really tough, handsome tree for just about any landscape in Zones 3-8.

	Re-pot into	Zones 3-8
#1 2-3'	#5	\$15.95 (10)+

4-5' TR TRUCK PREF.	#7	\$14.00 (10)+

***Carpinus car.* Fire Belle™ 'JN Select AA'** **Fire Belle™ Musclewood**

Selected by Michael Yanny at Johnson's Nursery in about 2011 for its brilliant-red consistent fall color, moderate growth rate, dense branching and rounded form. The tree was first picked out of a crop of about 1000 seedlings in 2007 as having superior vigor and then later (2011-2014) showing the spectacular, red fall color. It may have the brightest fall color of any *Carpinus caroliniana*. This is useful as a specimen plant either in full sun or the shade and tolerates heavy soils well. It should not be used in droughty soils and develops its best fall colors in full sun. The original plant was measured in October of 2016 at 13' tall by 13' wide, age 15.

	Re-pot into	Zones 3-7

1-2 TR	#5	\$8.30 (10)+
2-3 TR	#5	\$9.40 (10)+

***Carpinus coreana* Model Rocket™** **'#2HSINarrow'**

Model Rocket™ Korean Hornbeam

We've always had a fascination with the distinctive strong variation in seedlings of this species, and this is the best of many columnar forms we've observed over the past 20 years. Perfect as a street tree because of its narrow growth habit (5' x 20' after a dozen years), its strongly mycorrhizal roots give it exceptional drought tolerance and its tiny leaves mean it never makes a cleanup mess after leaf drop. Branches are tough, they don't break under an ice load like faster-growing, weaker red maples or birches. Fall color favors yellow sprinkled with a bit of orange, and gives way to a pleasing outline of narrow-angle ascending branches. Included bark in the branch crotches seems to never be a problem. A Heritage original, new to the trade this season.

Exclusive Propagator

Great Plant Picks...

a selection of outstanding plants
for the maritime Pacific Northwest.

greatplantpicks.org

Carpinus fangiana **Monkeytail Hornbeam**

Among the most difficult of all trees to propagate, it's worth every frustrating effort to succeed. We have grown this plant in small numbers for years and only recently felt audacious enough to list it. Extremely rare; probably always will be. Smaller in stature than ubiquitous Columnar European Hornbeam, it hardly breaks 18 feet tall and wide as a mature specimen. Easy to grow, its extremely long flower (8-10 in.) moves some to call it 'Monkeytail Hornbeam'. Our selection comes from Dan Hinkley, legendary horticulturist and human spirit.

	Re-pot into	Zones 7-9
#1 2-3'	#5	\$16.75 (10)+

Cercis occidentalis

Western Redbud

Heart-shaped light greenish gray leaves cover the thin brown branches in early spring, turning a darker shade of green later in the season, followed by gold and red leaves in autumn. Flower clusters of showy magenta color. Drought adapted and tolerant of much heat.

	Re-pot into	Zones 5-9
MP9ci	#1	\$3.65 (50)+

CHIONANTHUS

Chionanthus retusus

Chinese Fringetree

Like *Chionanthus virginicus*, Chinese Fringetree is an easily grown, small to medium tree. Flowers are borne at the ends of new shoots, weighing down the branches like wet snow. Few pests bother it. Always appealing across the seasons, the cinnamon-colored bark is most attractive in winter when contrasted against a snowy background.

	Re-pot into	Zones 6-8
MP9ci	#1	\$3.10 (50)+
2-3 TR	#5	\$8.45 (10)+

Chionanthus virginicus

White Fringetree

Shiny dark green leaves and abundant white, pleasantly fragrant flowers showcase this classy American native. Much hardier than *Chionanthus retusus*, it performs best in full sun and is remarkably versatile - from moist lowlands to dry hillsides. Among the finest of ALL landscape plants, not just natives.

	Re-pot into	Zones 4-9
LP18ci	#5	\$4.50 (10)+

CLADRASTIS

Cladrastis kentukea

American Yellowwood

Still uncommon in cultivation, this is an exceptional ornamental tree. Like wisterias, it is most noted for its large showy drooping clusters of fragrant white flowers, touched with yellow in the center. Introduced into cultivation by André Michaux in 1796. Its roots were chipped and boiled to yield a yellow dye for homespun fabrics before synthetic dyes became available. Adapted across a wide range of soil pH, it prefers a reasonably moist, yet well-drained soil with full sun and space to grow.

Cornus florida Cherokee Brave 'Comco #1'

Cherokee Brave Dogwood

Late-flowering form, essentially disease free. Deep pink to red flowers on this dogwood that makes most growers' top ten list.

	Re-pot into	Zones 5-9
#1 2-3' WHIP	#5	\$16.25 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#5-7	\$22.95 (10)+

Cornus florida 'Cherokee Princess'

Cherokee Princess Dogwood

Among the best of Flowering dogwoods, it combines large bracted flowers, abundant blooms, early bloom date, and hardiness. Strong resistance to canker and anthracnose.

	Re-pot into	Zones 5-9
#1 2-3'	#5	\$20.95 (10)+

***Cornus florida* Ragin' Red™ 'JN13'**

Ragin' Red™ Flowering Dogwood

While Ragin' Red™ has the darkest red floral bracts of any *C. florida* it also has very dark red leaves, here in Oregon, nearly all summer long. Fall color is again red. So it really is in a red rage from spring until leaf drop.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$17.75 (10)+
Price includes a \$1.50 royalty		

***Cornus kousa* 'Aka tsuki'**

Aka tsuki Dogwood

Rarely available; selected as a branch sport on 'Satomi'. It has white-variegated foliage similar to 'Wolf Eyes', but the flower bracts and foliage are irregularly specked with pink. With irrigation it is not as susceptible to sunburn in Oregon, but reports from TN growers suggest that it may do best there in partial shade or on a north facing slope to protect it from the worst of late afternoon summer heat.

	Re-pot into	Zones 5-8
#1 1-2'	#5	\$16.25 (10)+
#2 3-4'	#5-7	\$21.40 (10)+

***Cornus kousa* Blue Ray™ 'JN6'**

Blue Ray™ Dogwood

The large, well-formed foliage is cast with a blue haze, very different than any other dogwood. Moderate sized creamy white flowers are starry and the bracts overlap halfway.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$17.75 (10)+
Prices include a \$1.50 royalty		

New

***Cornus kousa* Eternal Scarlet™ 'Rutglow'**

PP19/038.065

Eternal Scarlet™ Dogwood

Completing the recent duo released from Rutgers, the intensely red-pink flowers of Eternal Scarlet™ are darker than Scarlet Fire® and exceptional in their beauty. The bracts overlap and the flower is almost square. They emerge with a purple hue in early May here in Oregon, their vibrancy deepening through the end of the month, finally fading only in late June. They last a very long time, six weeks. It is a smaller growing tree that will compliment your nursery program and comes from a program you already respect.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.60 (10)+

Limited Quantity

Prices include a \$2.35 royalty

***Cornus kousa* 'Greensleeves'**

Greensleeves Dogwood

Cappiello and Shadow, in their book, Dogwoods, call it one of the very best *Cornus kousa* varieties. Our own experience and that of growers across a broad range confirms their evaluation. Strong growth makes it a great nursery plant, and its handsome foliage and abundant flowers give it universal appeal. Flowers suffused with a hint of green on cream. Heavy fruit set against deep green waxy foliage that turns to autumn shades of red and purple.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$16.25 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#5-7	\$22.95 (10)+

Cornus alternifolia

What to expect when your plants arrive.

Rootstock plants like these *Acer palmatum* plugs are graded by caliper. We top most rootstocks before harvest to reduce shipping costs.

Grafted trees like these 'Inaba shidare' maples are graded by height with the rootballs netted for fast, easy handling and to minimize soil loss during handling and transit.

Naturally shrubby items, like hydrangea, may be pruned back to promote bushier growth. They'll cover your container faster.

Hedge grade *Fagus* or *Carpinus betulus* are topped in the field to promote lower branching. These will form hedges quickly, allowing faster turn times.

***Cornus kousa* 'Milky Way'**

Milky Way Dogwood

Among the most prolific of all white-blooming kousas. These are vegetatively propagated from our original budwood accession - the original 'Milky Way' dogwoods at Wayside Gardens. After 50 years, the name is widely recognized and an easy sell to your clients, but pay no premium for Milky Way seedlings.

	Re-pot into	Zones 5-8
#2 4-5' TRUCK ONLY	#5-7	\$22.95 (10)+

***Cornus kousa* Radiant Rose® 'Hanros'**

Radiant Rose® Dogwood

Likely 5-10°F hardier than 'Satomi'. Reddish new growth and pink flowers that emerge pink darkening as they age. It's a pretty plant and elicits because of its attractive hues.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$17.00 (10)+
Price includes a \$.75 royalty		

***Cornus kousa* 'Satomi'**

Satomi Dogwood

Best known of the pink *Cornus kousa* selections. Flowers are a rich variety of muted pinks over a period of almost a month! Leaves also tinted with a bit of maroon, adding summer-long interest. Income potential matches its ornamental promise, as its growth is upright and strong. It is not patented, and almost never develops the disease problems associated with *Cornus florida*. Flowers brightest pink in full sun.

	Re-pot into	Zones 5-8
#1 2-3' WHIP	#5	\$16.25 (10)+
#2 4-5' TRUCK ONLY	#5-7	\$22.95 (10)+

***Cornus kousa* Scarlet Fire™ 'Rutpink' PP28,311**

Scarlet Fire™ Dogwood

This is the first kousa dogwood released from the fabled Rutgers breeding program. It was selected for its deep pink to fuchsia colored bracts. They almost glow from a distance. The bracts are pointed and do not overlap, developing an attractive starry shape.

	Re-pot into	Zones 5-8

Cornus kousa 'Wolf Eyes'

Wolf Eyes Dogwood

Originally a branch sport, this dogwood is strong white variegated. It's fine in the sun, but should be used to brighten a shady spot in the landscape. 'Wolf Eyes' is a compact plant and has excellent pink and red fall color.

	Re-pot into	Zones 5-8
#1 2-3	#5	\$16.25 (10)+
#2 4-5' LT BRCH TRUCK ONLY	#5-7	\$22.95 (10)+

Cornus kousa var. chinensis

Chinese Dogwood

Mostly free of anthracnose leaf disease, and always popular in the nursery trade because seedlings are so inexpensive and easy to grow in a pot. Spectacular when laden with masses of large-bracted flowers. Vase-shaped at maturity, it differs significantly from *C. florida* by blooming a full month later and has more attractive, strawberry-like fruits. Autumn color is a showy burgundy, and fruits ripen at different stages in colors of green, yellow, orange, and red. Differs from *C. kousa*, Japanese Dogwood, in its more upright growth, longer internodes, and larger leaves and flowers. These characteristics make it profitable as an ornamental GC promo item, and as a dependable rootstock.

5-6' TR TRUCK ONLY	#7	\$16.40 (10)+

Cornus mas

Corneliancherry Dogwood

Very hardy. Prized for its ornamental bark and fruit, small stature, and disease-free character. March flowers provide a splash of yellow to herald the first days of spring. Variability in form and flower; however, this motivates a trend toward using seedlings as rootstock for named varieties that are selected for abundant flowers and large fruit.

	Re-pot into	Zones 4-8
3/16" caliper	#1	\$2.40 (50)+
LP21ci 1-2'	#3	\$3.05 (25)+

Cornus sericea

Redtwig Dogwood

Tolerates wet or dry conditions. Occasional pruning promotes best winter stem color. Exceptionally tough shrubs grown for their bright winter stems.

	Re-pot into	Zones 3-7
1-2' CONSERVATION	#1	\$1.45 (50)+

CORYLUS

Corylus avellana 'Contorta'

Harry Lauder's Walking Stick

Well-known "heirloom" variety cultivated for its odd twisted branches. The effect is most obvious in the winter, but even the leaves are twisted and bent. After a generation, it becomes a 12 ft. globose shrub. Puts on an interesting late winter flower display of long yellow-brown catkins. From tissue culture, any suckers are also contorted.

	Re-pot into	Zones 4-8
#1	#5	\$15.50 (10)+

Corylus columna

Turkish Hazel Tree

Uncommon in American gardens, this medium to large tree ought to be used more for its pest-free character, conky bark, and symmetrical cone-shaped outline. Stays remarkably green through the toughest drought. Often used as a rootstock because it has less potential to produce suckers as compared to *C. avellana*

	Re-pot into	Zones 4-7
LP21ci 3/16" caliper	#3	\$2.95 (25)+

COTINUS

Cotinus coggygria var. purpurea

Purple Smoketree

Deep purple leaves which hold color throughout the summer. Economical alternative to more expensive cultivars, these can be potted up for a popular, easy to grow promo item in the garden center. The few greenish plants which emerge in our seedlings are pulled out early, so you're assured of receiving plants with uniform, dark purple leaves.

	Re-pot into	Zones 5-8
MP9ci	#1	\$1.95 (50)+

Cotinus obovatus

American Smoketree

Stunning autumn color. Its flaming fall foliage rivals that of Sugar Maple. Thrives in rocky, dry areas where other trees languish. Larger leaves than *C. coggygria* and much taller in stature at maturity.

	Re-pot into	Zones 4-8
MP9ci	#1	\$3.05 (50)+

DAPHNE

Daphne × *Perfume Princess*® 'DapJur01' *Perfume Princess*® *Daphne*

Evergreen, highly fragrant blooming hybrid of *D. odora* and *D. bholua*. "Perfume" does not adequately describe its wonderful fragrance. Vigorous and less fussy than either of its parent species, and bearing abundant, larger flowers than either parent as well. Exceptional plant, meriting Smultiple plants in any Maritime Northwest garden, but do remember to put it close-by or you may miss its fragrance.

	Re-pot into	Zones 7-9
LP18ci	#3	\$9.95 (25)+
Price includes a \$1.75 royalty		

DAVIDIA

Davidia involucrata *Dove Tree, Handkerchief Tree*

The intriguing flowers of this Chinese native tree invite closer inspection. Similar to Flowering Dogwood and Chinese Dogwood, the "petals" are actually large white bracts that overshadow the inconspicuous actual flowers. Difficult to propagate and locate in the wholesale trade, Dove Tree is widely adapted and fast-growing to 40 ft. tall. Once established, it makes an strong specimen tree, seldom damaged by ice storms.

	Re-pot into	Zones 6-8
#1 3-4'	#5	\$16.85 (10)+

DIOSPYROS

Diospyros kaki 'Fuyu' *Fuyu Asian Persimmon*

Attractive glossy foliage of deep green clothe this disease free tree. Tasty orange fruit, of the non-astringent variety.

	Re-pot into	Zones 7-9
#1 2-3'	#5	\$15.50 (10)+
California shipping prohibited		

Diospyros virginiana *American Persimmon*

Native widely distributed in the East. Heat tolerant, tough and having more ornamental character to recommend it than is widely acknowledged. The astringent fruits are most attractive, accented on top with large, persistent calyces. Fruit can be abundant, but isn't usually messy because it persists late into winter, providing a tasty treat for wildlife after the first hard frosts. The deeply furrowed, blocky bark on mature trees is especially handsome when accented by winter snow. Its unobtrusive size and ease of care make this a tree that deserves more attention by designers and landscape firms, and our propagation numbers reflect big recent up-tick in demand.

	Re-pot into	Zones 4-9
MP15ci 3/16" caliper	#1	\$2.35 (50)+
California shipping prohibited		

DIRCA

Dirca palustris *Leatherwood*

Dirca is curious and attractive Daphne relative from eastern North America but never common. The small flowers are numerous and not without subtle appeal but most notable is how pliable the entire plant is, perhaps an adaptation to deep layers of snow.

	Re-pot into	Zones 3-9
LP18ci	#1	\$4.15 (25)+

FAGUS

Fagus grandifolia *American Beech*

Heat tolerance helps this native tree outperform *F. sylvatica* in the Southeast, and yet it is also cold hardy. Best for large, open area where it is free to grow, reaching heights of 70-90 ft.

	Re-pot into	Zones 3-9
LP21ci	#3	\$4.20 (25)+

Fagus hayatae *Taiwan beech*

The wild population of Taiwan beech is quite threatened, so Mark was very excited to get a small handful of seedlings about fifteen years ago. Now growing in our stock field, they have proved hardy, dense-growing, attractive trees. Their leaves are small, narrow with a sharp apex; similar looking to *crenata*. It's slower growing than European beech and won't get as large but it will be a long-lived and attractive tree. We offer grafted plants.

	Re-pot into	Zones 6-9
#1 2-3'	#5	\$16.75 (10)+

Fagus orientalis 'Iskander' *New* *Iskander Oriental Beech*

A fastigate clone from the more heat-tolerant Oriental beech with sturdy branches which help maintain the upright form longer into its potentially very long life. Form is similar to 'Dawyck' but this has larger, better leaves. Reportedly, it is less frequently infested with wooly aphid.

	Re-pot into	Zones 6-8
#1 2-3'	#5	\$17.45 (10)+

Fagus sylvatica *European Beech*

The grand patriarch of specimen trees. Generations of horticulturists have selected a rich assortment of beautiful cultivars that are grafted onto rootstocks such as these.

	Re-pot into	Zones 5-8
LP21ci 3/16" caliper	#3	\$2.95 (25)+
2-3' TR HEDGE*	#5-7	\$8.25 (10)+

*low branched and clipped for hedges
Plant directly into landscape for max profit.
See *Carpinus betulus* also.

Fagus sylvatica 'Dawyck Gold'

Dawyck Golden European Beech

Tightly upright without pruning. Its moderate growth rate makes it a useful landscape plant. Bright golden spring foliage fades to green, followed by pleasing bronze fall color. Selected in Scotland as a seedling cross of the green 'Dawyck' Columnar Beech and the golden variegated selection 'Zlatia'.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$16.75 (10)+

Fagus sylvatica 'Dawyck' (Green)

Dawyck Green European Beech

Narrowly columnar form, its tight habit in notable contrast to green seedlings that grow to round form as wide or wider than tall. Not a dwarf, it can reach 50+ feet tall.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$16.75 (10)+
3-4' TR	#5-7	\$20.35 (10)+
4-5' TR TRUCK ONLY	#7	\$22.80 (10)+

Fagus sylvatica 'Dawyck Purple'

Dawyck Purple European Beech

A favorite purple beech that holds a beautiful narrow, upright form. Selected in Scotland as a chance seedling cross of the green 'Dawyck' Columnar Beech and a purple-leaf form, it has become a mainstay in the landscape trade for its consistent dark purple foliage and appealing upright habit.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$16.75 (10)+

Fagus sylvatica 'Purple Fountain'

Purple Fountain European Beech

Differs from 'Purpurea Pendula' by being a "nursery plant" that develops a loose, upright leader instead of trying to be an ugly purple mushroom that requires constant staking. The landscape effect is charming, with pendulous branches on a loosely upright plant.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$16.75 (10)+
3-4' TR	#5-7	\$19.75 (10)+

HEPTACODIUM

Heptacodium miconioides Seven-Son Flower

Due to its multi-season appeal, this multi-stemmed tree introduced from China in 1980 is finally starting to gain followers. Covered with large clusters of white flowers in mid summer, in late summer and fall it displays great masses of pink-red seeds. Finally, the winter season highlights its shaggy bark. It does require shaping to highlight its normally "stemmy" form - a central leader formed early helps to make it a highly marketable tree, but it cannot be reshaped if neglected when small.

MP9ci	#1	\$3.10 (50)+

HYDRANGEA

Hydrangea macrophylla Tuxedo® *New* Pink'Jon02'

Pink Tuxedo® Hydrangea

The exceptionally dark foliage, nearly black in full sun, gives the pink to red flowers unmatched vibrancy. It caught our attention; this is the first and only big leaf hydrangea we've grown in over a decade. Grows as a modest 3-foot shrub.

	Re-pot into	Zones 5-9
LP18ci	#3	\$8.50 (25)+

Prices include a \$0.75 royalty

Hydrangea q. 'Ruby Slippers' Ruby Slippers Oakleaf Hydrangea

Another USNA introduction - a cross of 'Snow Queen' and 'Pee Wee'. The upright, 9 in. inflorescences come out white but very quickly develop a pleasant rosy hue. To only about 3.5 ft. tall, it fits neatly into today's compact multi-family housing landscapes.

	Re-pot into	Zones 5-9
LP18ci	#1	\$7.75 (25)+

Hydrangea q. 'Snow Queen' Snow Queen Oakleaf Hydrangea

A prolific bloomer, its stout stems ensure that the flowers don't droop. Although the coarse leaves give it an almost tropical appearance, the autumn leaf colors are a rich mix of red, burnt orange, and green. When the notably persistent foliage drops, the tan/brown exfoliating bark is a pleasing unexpected bonus.

	Re-pot into	Zones 5-9
LP18ci	#3	\$7.75 (25)+

ILEX

Ilex verticillata 'Winter Gold' Winter Gold Winterberry

Orange-gold fruits and lighter green foliage. Originally found as a branch sport of 'Winter Red'.

	Re-pot into	Zones 3-9
LP40ci	#3	\$7.15 (10)+

Ilex verticillata 'Winter Red'

Winter Red Winterberry

Best known; many say the best winterberry. Seasonally holds large red berries.

	Re-pot into	Zones 3-9
LP40ci	#3	\$7.15 (10)+

KOELREUTERIA

Koelreuteria paniculata Goldenraintree

Attractive as a landscape tree for its bright golden summer flowers that stand erect above the distinctive foliage. Flowers mature into clustered, papery "Chinese lantern" seed capsules that droop from the branches mid-summer through autumn. Goldenraintree seems to do best if it is somewhat neglected.

	Re-pot into	Zones 5-9

Magnolia 'Daybreak'

Daybreak Magnolia

The late August Kehr of Hendersonville, NC considered this his finest magnolia hybrid, and we whole-heartedly agree. Upright in form, the blooms are delightfully fragrant. It has two significant attributes. First, it blooms much later than *M. x soulangiana* (6 weeks) so the flowers seldom freeze. Second, the rich pink flowers have a crisp, translucent character to them that makes a dramatic contrast to the duller pink blooms of *M. x soulangiana* selections. These plants are quite a prize.

Magnolia 'Sunsation'

Sunsation Magnolia

During the 2011 Magnolia Society meeting in Rhode Island, a majority of women in the crowd raved about this abundant bloomer with its rosy-accented flowers. It's a wonderful selection due to the warm color tones, blooming later than any of the other yellows and before the emergent leaves. August Kehr, the hybridizer, would have never accepted much credit for this plant he created, but he deserves all our thanks for his exceptional work, including this plant. Interesting story: On the way to see Augie from Raleigh, NC Pat McCracken and Mark Krautmann decided to accept August's invitation to name all of his (at that time, only numbered) superior yellows. Before we got to Hendersonville where he and his wife lived, we came up with Stellar Acclaim, Sunsation, Solar Eclipse, Hot Flash, and Sunspire. Augie was too modest to name his own "children".

Great Plant Picks...

a selection of outstanding plants for the maritime Pacific Northwest.

greatplantpicks.org

***Magnolia cylindrica* Marilyn's**

Choice™ 'MJK-MC1' PP34,917

Marilyn's Choice™ Magnolia

Literally the single tree selection distinguished enough to merit patent status after 41 years of watching millions of seedlings at this firm. Even in this modest catalog, we list a whopping 34 additional cultivars and seedlings. So, to be distinctly different, to stand the test of time, how does this selection qualify in an already crowded field? First, it's tightly columnar in habit, so it qualifies to plant it in a wide variety of residential and commercial settings. Second, it's a solid "nursery plant" meaning it has no observed pest and disease issues, even in the difficult humid, hot conditions of South Carolina where astute plantsman Bob Head acclaims it far superior there to the popular variety, 'Galaxy'. Sales departments will love it because its quick finish in a container with multiple flower buds. Hardiness of the species is listed as Zones 5-9, so it covers an enormous spread of the country. We're a premier magnolia propagator; we know how to grow them well. Book a few of these and see for yourself how this one will set itself and your firm apart from the competition

NEW LISTING

MALUS Fruit Snacks® Apples

Easy to grow and care for due to their size, Fruit Snacks® columnar apples are ideal choices for small spaces. Trees grow 8-10' tall and can be planted on 2' centers to maximize space. They are skinny apple trees that need minimal pruning. Their cold hardiness and disease resistance make them a reliable choice for an edible privacy hedge or as accent plants in large containers. No harsh chemicals are required because the Fruit Snacks line was bred by the best apple breeders in Europe to be rust-resistant and virus free. Like other apples, you will need two different varieties for pollination. Fruit Snacks™ apples bloom mid-season and will be good pollinizers for the others.

Magnolia virginiana var. *australis*

'Green Shadow'

Green Sweetbay Shadow Magnolia

Honoring the great plantsman Don Shadow, this magnolia is evergreen to -15°F. Sweet lemon fragrance, white flowers, good tight oval form and dark foliage combine to make it an exceptional selection.

LP18ci	Re-pot into #3	Zones 5-9 \$8.70 (25)+
--------	-------------------	---------------------------

Magnolia virginiana var. *australis*

'Northern Belle'

Northern Belle Sweetbay Magnolia

A super hardy selection that has withstood -35°F, although it drops its leaves at that temperature. The flowers are fragrant and the leaves are darker green than those of Moonglow®.

LP18ci	Re-pot into #2	Zones 3-9 \$8.70 (25)+
--------	-------------------	---------------------------

Magnolia tripetala

Umbrella Magnolia

The common name derives from its foliage, arranged in whorls to form a parasol-like appearance. Flowers unremarkable and having a disagreeable odor. Shrubby habit but tree-like in size, this American native is sometimes confused with *Magnolia macrophylla* due to its large leaves, sometimes more than two ft. long, it really is quite a sight.

#1 2-3'	Re-pot into #5	Zones 5-8 \$13.40 (10)+
---------	-------------------	----------------------------

MAHONIA

Mahonia aquifolium

Oregon Grape

Upright evergreen shrub with spiny leaves. Native in the Northwest, it benefits from occasional pruning to keep foliage clean and diminish its tendency to become overgrown. Native Americans used the stems and roots to make a yellow dye.

MP9ci	Re-pot into #1	Zones 5-8 \$3.05 (50)+
-------	-------------------	---------------------------

Mahonia × *media* 'Charity'

Charity Mahonia

Beautiful across all seasons for its architecturally bold and symmetrical form. Bright yellow late-winter flowers. Here in the wet-winter Pacific Northwest, our 'Charity' stock block is totally free of leaf spot that infects *Mahonia bealei* so severely.

#1	Re-pot into #5	Zones 6-9 \$10.95 (10)+
----	-------------------	----------------------------

Mahonia × *media* 'Underway'

Underway Mahonia

With familiar creamy yellow flower clusters during the shortest days of the year Underway is also slightly hardier and a little more compact than the other hybrid Mahonia selections. Earlier than Winter Sun. 1993 Award of Garden Merit from the Royal Horticulture Society originally selected at Slieve Donard Nursery, Northern Ireland.

#1	Re-pot into #5	Zones 6-9 \$10.95 (10)+
----	-------------------	----------------------------

Mahonia × *media* 'Winter Sun'

Winter Sun Mahonia

Evergreen shrub with rich forest-green foliage to accent its bright yellow early winter flowers. Upright growth and drought/shade tolerance make this a great focal plant when winter's arrival means few possibilities to brighten the garden with fresh flowers.

#1	Re-pot into #5	Zones 6-9 \$10.95 (10)+
----	-------------------	----------------------------

Mahonia nervosa

Cascades Mahonia

Short 1-2 ft. hardy Pacific Northwest native of medium texture. Attractive blue fruits accented by prickly, deep green, narrow leaves.

MP9ci	Re-pot into #1	Zones 5-8 \$3.35 (50)+
-------	-------------------	---------------------------

Mahonia repens

Creeping Mahonia

Hardier than its cousins and not as tall. It grows to only 1-2 ft., has satin foliage, and is more shade tolerant. An elegant low shrub for a spot where it can be left to spread without irrigation.

MP9ci	Re-pot into #1	Zones 3-7 \$3.05 (50)+
-------	-------------------	---------------------------

METASEQUOIA

Metasequoia glyptostroboides

Dawn Redwood

This ancient tree evokes a sentiment of awe when one realizes it has endured change and upheaval essentially in its present form for millions of years. Discovered as a "living fossil" in China in 1941, it prefers a moist, well-drained soil. Dawn Redwood is a fast-growing, pest-free and fine-textured conifer, hardy and adaptable.

NYSSA

***Nyssa sylvatica* Blackgum**

With its brightly colored, shiny autumn leaves and wide range of additivity, especially well suited to wet sites. This is a great landscape tree. Unlike widely-planted Sweetgum, even seedlings of Blackgum are dependable for fall color. Needs pruning when young. These pot-propagated plants ensure transplant success.

	Re-pot into	Zones 4-9
MP15ci	#1	\$3.00 (50)+

***Nyssa sylvatica* Green Gable™ 'NSUHH' PP 22,951**

Green Gable™ Black Tupelo

Green Gable™ is a great addition to American horticulture, with notably glossy foliage, and beautiful fall color. With its dominant central leader, it develops an attractive pyramidal form.

	Re-pot into	Zones 4-9
#1 3-4'	#5	\$21.60 (10)+
Price includes a \$1.85 royalty		

***Nyssa sylvatica* Majestic® 'M.O.N.2' New**

Majestic® Black Gum Tree

Another selection that brings all the best attributes together in one tree. It's the hardiest, grown on equally hardy rootstock. The leaves are very glossy, dark green and it has strong, vigorous upright growth. Great colors in autumn.

	Re-pot into	Zones 4-9
#1 3-4'	#5	\$20.75 (10)+
Price includes a \$1.00 royalty		

***Nyssa sylvatica* Tupelo Tower™ 'WFH1' PP22,976**

Tupelo Tower™ Black Tupelo

With all the great ornamental attributes of blackgum, including exceptional fall color and ease of care, this selection allows even more flexibility of location because of its columnar habit. Tupelo Tower™ was selected from a Zone 4 seedling population.

	Re-pot into	Zones 4-9

#1 3-4'	#5	\$19.75 (10)+

***Mahonia × media* 'Winter Sun'**

PAEONIA

Garden Candy® ITOH peony

The American Peony Society named the ITOH peony in honor of Dr. Toichi Itoh, who first successfully crossed tree and herbaceous peonies, creating deer-resistant, disease-resistant plants with large, colorful blooms. We aim to make these exceptional hybrids widely available and affordable, with features like strong stems, and compact size. No need for staking or pest control, the new Garden Candy® series offers vibrant, reliably consistent ITOH peonies that are easy to grow and suited for Zones 3–8, bringing lasting color and joy to gardens.

Shipped during the peony dormant season of September through December.

What we Offer:

#1		\$16.95 (10)+
#2	Retail ready	\$24.35 (10)+

Most of the #1 grown plants will blossom in the spring. All the #2 grown plants will flower in the spring.

HOW WILL MY PLANTS BE SHIPPED?

To cut down weight and keep shipping costs low we “partially shake” each plant and leave only 30% of soil to help with transplant shock. We then net with “elastic ham” mesh in bundles of 5-50 for extra protection during transit and for easier handling when unloading.

UPS shipping:

Partially shaken gallon plants weigh 1.2lbs compared to 3 or more unshaken. We can fit 60 plants, partially shaken in a 45x16X11 box and only 22 plants unshaken.

Trucking:

We can fit 1,000 partially shaken gallon plants in our 4'Wx4'Lx4'H wooden crates and are able to double stack, compared to 400 plants unshaken we can't double stack plants with intact root balls due to truck weight limits.

*Meet Mike,
Mike has been managing our shipping department for over 30+ years! Mike, alongside his shipping team are a key element in ensuring you get your plants happy and healthy.*

OSTRYA

Ostrya virginiana

Ironwood, Eastern Hophornbeam

A graceful, slow growing native tree that tolerates shade and grows to 40 ft. tall. Bark peels in vertical strips. Very easy to grow in the nursery and relatively fast to finish. Pleasing yellow fall color.

	Re-pot into	Zones 3-7
MP9ci	#1	\$3.10 (50)+
#1	#5	\$9.35 (10)+

OXYDENDRUM

Oxydendrum arboreum

Sourwood

Exceptional ornamental with handsome glossy summer foliage. A medium tree that grows to 45 ft., it prefers full sun and an acidic, well-drained soil. Honeybees relish the nectar of the delicate, heather-like blooms, born on the branch ends like white bouquets in mid-summer. Sourwood honey is a particular delight, so special that it's sold only regionally in the Southeast, and fetches a premium at roadside stands. *Oxydendrum* in the autumn is a sight for tired eyes, as the foliage shows off rich blends of orange, red and yellow.

	Re-pot into	Zones 5-9
SP2ci	#1	\$2.50 (50)+
LP18ci	#1-2	\$8.70 (25)+

PARROTIA

Parrotia persica Golden BellTower™

'Chrishaven1' PP28,584

Golden BellTower™ Columnar Ironwood

A superior, tight form that stays columnar over the years. Clean, insect and disease resistant green leaves turn bright golden yellow and red-orange in autumn. Over time the bark handsomely exfoliates. Golden BellTower™ is a moderate grower and will reach 25 ft. tall and 10 ft. wide over 8-10 years. Makes an excellent choice for smaller yards, and is a logical choice for commercial plantings or as a street tree. The best fall color will be achieved by growing it in full sun; however, it will grow equally well in part shade. Drought resistant once established.

	Re-pot into	Zones 5-8
LP18ci	#3	\$7.70 (25)+
#1 3-4'	#5	\$18.00 (10)+

Prices include a \$1.50 royalty

Parrotia persica 'Vanessa'

Columnar Persian Ironwood

Upright form of a tough small tree that requires almost no care in return for its year-round appeal. Patchy bark, spring bronze-green foliage, exceptional month-after-month autumn color, and attractive winter branch structure put into a class that almost approaches the perfection of Paperbark Maple and Stewartia. What it lacks in flower appeal is balanced by its extreme drought tolerance and overall tough character.

	Re-pot into	Zones 5-8
LP18ci	#3	\$7.70 (25)+
#1 3-4'	#5	\$16.50 (10)+

PISTACIA

Pistacia chinensis

Chinese Pistache

Pest-free and exceptionally drought tolerant small tree (20 ft.), with excellent red, purple, and orange fall color, even in the Deep South. A logical tree for infertile soils or unirrigated urban sites along streets, in parking medians, or under power lines, where it's tough character will ensure its success.

	Re-pot into	Zones 6-9
MP9ci	#1	\$2.45 (50)+

Pistacia x 'Red Push'

Red Push Pistache

This hybrid is extremely tolerant of intense heat and the conditions found in the South West and California. The red new growth is showy and foreshadows the brilliant foliage coloration in autumn. It's an excellent shade tree with moderate growth and long-life durability.

	Re-pot into	Zones 7-10
#1 2-3'	#2-5	\$15.05 (10)+

POPULUS

Populus tremuloides

Quaking Aspen

Fast-growing but short-lived in the East; best growth and persistence in the West is under cold, dry conditions. Clear yellow fall color. One of the first trees to leaf out and last to drop its leaves.

	Re-pot into	Zones 2-8
MP9ci	#1	\$2.35 (50)+

PRUNUS

Prunus 'Dreamcatcher'

Dreamcatcher Flowering Cherry

US National Arboretum selection with single pink flowers, unblemished foliage in summer, upright vase-shaped character, and yellow autumn foliage. A great focus tree – a specimen for prominent placement in a modest size area where it can flourish to 25 feet tall by 15 feet wide at maturity.

	Re-pot into	Zones 6-8
#1 2-3'	#5	\$15.05 (10)+

Prunus 'First Lady'

First Lady Flowering Dogwood

The Nation Arboretum's wisdom in testing this for over twenty years is rewarded by superior tree form, 30 feet tall by on 15 feet wide. It has semi-pendulous, single, dark rose-pink flowers opening late in March into early April. One of the best features are red calyces which provide an interesting post-bloom ornamental color boost for a further three weeks after petal drop.

	Re-pot into	Zones 6-8
#1 2-3'	#5	\$15.05 (10)+

Great Plant Picks...

a selection of outstanding plants for the maritime Pacific Northwest.

greatplantpicks.org

Quercus alba

PSEUDOLARIX

Pseudolarix amabilis

Golden-larch

Among deciduous conifers, it is singularly beautiful with its soft yellow-green foliage and open growing habit. Visitors who approach these plants in the nursery have an instinctive urge to "pet" young plants because they are so inviting and attractive.

LP18ci	Re-pot into #3	Zones 5-8 \$6.20 (25)+
--------	-------------------	---------------------------

QUERCUS

Quercus alba

White Oak

Fastidious in its cultural requirements, but worth the trouble if its needs are met in an undisturbed, well-drained soil where it can be allowed to develop its picturesque spread.

LP21ci 6-12"	Re-pot into #3	Zones 4-8 \$3.10 (25)+
3-4' TR	#5-7	\$11.70 (10)+
4-5' TR TRUCK PREF	#5-7	\$13.75 (10)+

Quercus bicolor

Swamp White Oak

Flaking bark texture, even on young trees. Although its common name indicates that it prefers moist areas, it is drought tolerant. The silver undersides of the leaves lend contrast to the upper leaf surface, prompting the species name "bicolor". Among the easiest of the oaks to transplant, it is also hardy and has few insect or disease problems.

LP21ci 3/16" caliper	Re-pot into #3	Zones 3-8 \$3.60 (25)+
LP21ci 1/4" caliper	#3	\$3.90 (25)+
3-4' TR	#5-7	\$11.70 (10)+
4-5' TR TRUCK PREF	#5-7	\$13.75 (10)+

Quercus bicolor 'Conundrum'

New

Conundrum Swamp White Oak

About fifteen years ago a seedling stood out for its large deeply dissected leaves, each lobe ending in a sharp point – very unlike its swamp white oak sisters. Though it looks like a hybrid, its genes test as pure bicolor. It grows with good form, straight central leader and branches with wide attachment. Overall, the tree is developing a nice pyramidal to oval form. We think this is a good tree that stands out among so many oaks.

#1 3-4'	Re-pot into #5	Zones 3-8 \$18.60 (10)+
3-4' TR	#5-7	\$19.70 (10)+
4-5' TR TRUCK PREF.	#5-7	\$22.50 (10)+

Exclusive Propagator

Quercus dentata 'Pinnatifida'

Cutleaf Emperor Oak

Some European and Asian White Oak selections have dissected leaves, but none more than this oddity with its large, variable, deeply incised foliage. With time, it develops an open irregular crown that always turns heads. A great gift item for a few of your very best clients who will relish its uniqueness!

#1 1-2'	Re-pot into #5	Zones 5-8 \$15.10 (10)+
---------	-------------------	----------------------------

TAYLORMADE™ OAKS

Selected by the late SW oak expert, Alan Taylor. These represent his best selections with tree form, strong growth and good foliage traits. We are honored to offer them.

Quercus gambellii 'Bear Tree' **The Bear Tree TAYLORMADE™ Oak**

A TAYLOR MADE™ oak this from Apache Creek, Huefano Co., CO. Because the acorns have low tannins, the bears climb all through the tree eating them, but bears are poor judges of how much weight a branch holds. It's a large and robust tree with good form - until a too-fat bear visits - and golden fall color. It's a great tree across the West and probably harder than zone 5.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Price includes a \$1.50 royalty		

Quercus 'Estelle' **Estelle TAYLORMADE™ Oak**

Selected for its attractively shaped leaves, good tree form, and red fall color. It's a bur-gambel hybrid, though smaller growing than 'Jack Maze', it will reach 30'. This performs well in the East too.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Prices include a \$1.50 royalty		

Quercus 'Jack Maze' **Jack Maze TAYLORMADE™ Oak**

This is as large as any normal bur oak and a beautiful tree sure to be of interest in the trade. A good grower with good form originally from Cottonwood Canyon CO. It grows with a single trunk. 'Jack Maze' and 'Westward Ho!' are strikingly different in their growth habit. 'Jack Maze' will be a much larger tree over time. Golden butter fall color. (*macrocarpa* x *gambellii*)

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Price includes a \$1.50 royalty		

Quercus 'King Canute' **King Canute TAYLORMADE™ Oak**

This represents the complex parentage - ongoing evolution - among many Southwest oaks. In western Oklahoma it reaches a large size, to 40', with a full crown of leaves which turn red in autumn. Should do well in the Midwest and East.

	Re-pot into	Zones 3-9
#1 2-3'	#5	\$18.25 (10)+
Prices include a \$1.50 royalty		

Quercus 'Lady Luck' **Lady Luck TAYLORMADE™ Oak**

From Folsom NM. For a Southwest oak, it has large thick leaves, green, with pointed lobes. Allan Taylor called it pure gambel, others aren't so sure. Small to medium statured, round head. It has red and auburn color in the autumn.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Price includes a \$1.50 royalty		

Quercus gambellii 'Tularosa' **Tularosa TAYLORMADE™ Oak**

This is deciduous and a likely hybrid between *Q gambellii* and *Q arizonica*, an evergreen species. Good fall color in Colorado, yellow in Oregon. Very fast growing in the nursery. 2-3" green leaf with large lobes looks those of gambellii.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Price includes a \$1.50 royalty		

Quercus gambellii Westward Ho **Westward Ho! TAYLORMADE™ Oak**

In many ways, Allan Taylor believed this is the best bur-gambel oak he ever observed. It is beautiful in all regards, representing a lot of back crossing to gambellii, taming its stature. Deep green, lobed foliage is disease free and turns apricot in fall.

	Re-pot into	Zones 5-8
#1 2-3'	#5	\$18.25 (10)+
Price includes a \$1.50 royalty		

Quercus gambellii **Rocky Mountain White Oak**

Native to the "Four Corners" States, this deciduous tree can be grown as a multistem shrub or small single stem tree, eventually reaching 45 ft. Tolerates high pH soil. Drought resistant once established.

	Re-pot into	Zones 4-6
2-3' TR	#5	\$8.95 (10)+

Quercus gambellii GILA MONSTER™ **GILA MONSTER™ Tree From Gambel Oak**

Selected in New Mexico for its durability and tendency to grow with a single trunk while most seedling gambel oaks grow as shrubby colonies or multi-stemmed small trees. Tolerant of heat and drought once established.

	Re-pot into	Zones 4-6
LP21ci	#3	\$5.20 (25)+
Price includes a \$1.50 royalty		

Quercus greggii La Siberia **La Siberia Strain Mexican Oak**

Sean Hogan of Cistus Nursery in Portland, Oregon collected seed and named this strain from 10 ft. trees in a high mountain valley in Tamaulipas, Mexico. These seedlings are grown from seed of 25 ft. The leaves are attractively fuzzy and crinkled on these slow growers. Everything about this oak is different than what you know of oak trees; growing like a shrub when conditions are harsh or a tree when given a little attention and irrigation. Semi - evergreen.

	Re-pot into	Zones 7-9
LP21ci	#3	\$3.10 (25)+

The Gold Medal Plant Award of the Pennsylvania Horticultural Society

recognizes trees, shrubs and woody vines of outstanding merit for their superb eye-appeal, performance, and hardiness in Zones 5-7.

Quercus hypoleucoides Silverleaf Oak

Native to upper elevations in the Davis Mountains of West Texas, this evergreen oak is widely adapted, forming shrubs where conditions are harsh - or a 40 ft. tree where more favorable. Deep dark green leaves are backed by white. Under-utilized, this tree is adapted to grow throughout much of the mild West.

	Re-pot into	Zones 7-9
LP21ci	#3	\$4.50 (25)+

Quercus garryana Oregon White Oak

Named to honor Nicholas Garry of the Hudson Bay Company, this is the climax species of the pre-1850s Willamette Valley oak savannah. We see occasional remnants of these original trees, some of which measure more than 5 ft. through and exceed 300 years old. These are truly heritage trees, having sheltered and fed the Kalapuya Indians, who gathered acorns by the ton and processed them to make thick soup and flatbread. These seedlings represent our investment in the forest of the future.

	Re-pot into	Zones 6-9
LP21ci	#3	\$3.70 (25)+

Quercus Kindred Spirit® 'Nadler' Kindred Spirit® Hybrid Oak

Chief among its merits is strong mildew resistance, in contrast to Columnar English Oak, which often gets terribly infested with this leaf disease. Strongly columnar in outline, it's 4-5 times taller than wide in outline, significantly more columnar than the similar selection, Regal Prince®. Grafted onto vigorous *Quercus bicolor* liners with mycorrhizal roots, these have excellent survivability without significant transplant shock. *Q. robur* var. *fastigiata* × *Q. bicolor*.

	Re-pot into	Zones 4-8
#1 3-4'	#5	\$20.60 (10)+
3-4' TR	#5-7	\$22.20 (10)+
4-5' TR TRUCK ONLY	#5-7	\$24.25 (10)+

Prices include a \$2.00 royalty

Quercus macrocarpa Bur Oak (Northern Source)

Native across a broad range in the eastern US, it is consequently variable in leaf form, size and growth rate. These seedlings are Pennsylvania source. This patriarch forest tree is best for parks and large, open landscapes.

	Re-pot into	Zones 3-8
LP21ci 6-12"	#3	\$3.10 (25)+

Quercus palustris Pin Oak

Widely planted throughout the eastern US because it tolerates wet sites and disturbed, compacted soils. Pin Oak is sometimes seen with chlorotic foliage caused by iron deficiency in high pH soils. In such areas, *Quercus ellipsoidalis* is a superior landscape choice, better adapted to limestone soils.

	Re-pot into	Zones 5-8
LP21ci 1-2'	#3	\$3.60 (25)+
3-4' TR	#5-7	\$11.70 (10)+
4-5' TR TRUCK PREF	#5-7	\$13.75 (10)+

Quercus palustris 'Green Pillar'® Green Pillar® Pin Oak

A Princeton Nursery clone with few apparent graft incompatibility problems. Maroon red autumn color and narrow habit, its branches don't droop like the species. Mature height 40-60 ft. with a 12-15 ft. spread.

	Re-pot into	Zones 4-8
#1 3-4'	#5	\$19.50 (10)+

Price includes a \$0.90 royalty

Quercus phellos Willow Oak

A fine-textured tree with high branches, it makes a great specimen for a lawn or along a driveway because it doesn't develop a basal "hump" that heaves sidewalks like *Acer rubrum*. Fall color ranges from brown to yellow to russet red. Rapid growing, this is among the best of the eastern US oaks. Its narrow leaves are easily cleaned up from the lawn. The small acorns, like those of the pin oak, are relished by wildlife.

	Re-pot into	Zones 5-9
LP21ci 1-2'	#3	\$3.60 (25)+
3-4' TR TRUCK PREF	#5-7	\$11.70 (10)+

Quercus palustris

NEW & EXCITING

Flower Carpet® Ground Cover & Showpeice™ Fragrant Shrub Roses

Summary:

Anthony Tesselaar Flower Carpet® Roses are a unique and visually striking variety of groundcover roses and shrubs known for their prolific blooming and low-maintenance nature. They are available in a variety of colors and are designed to offer long-lasting displays from spring through to autumn.

Key Features:

Up to 2,000 Blooms Per Season!
Once established, Flower Carpet® and Showpeice™ roses explode with dazzling flowers—blanketing your garden in color for months on end.

Glossy Green, Lush Foliage:

These roses aren't just about the blooms. Their dense, glossy green leaves form a lush, bushy mound that looks fantastic year-round.

Sun-Loving Superstars:

Thrives in full sun—the more light, the more flowers! Even in partial sun (2/3 light), they still impress.

Drought Tolerant:

Thanks to a smart, tiered root system, these roses sip moisture from the surface and deep below—perfect for dry climates once established.

Disease-Resistant:

Say goodbye to black spot and mildew. These hardy roses don't need spraying and stay healthy with minimal fuss.

Showpiece™ Fragrant Shrub:

Showpiece™ 'Noa16079' Lipstick

Flower Carpet® Ground Cover:

Flower Carpet®
Groundcover 'NOA813219' Peach

Showpiece™ 'Noa39131' Orange

Flower Carpet® Groundcover 'Noa20059'
Mini Cherry

Showpiece™ 'Noa1112130' Champagne

TAXODIUM

Taxodium ascendens Debonair® 'Morris'

Debonair® Pond Cypress

Red-brown fall color, medium-green in summer, foliage more delicate in texture than Baldcypress. Hardier than Prairie Sentinel, to -28°F and seedless.

	Re-pot into	Zones 5-9
#1 2-3'	#2	\$18.50 (10)+

Price includes a \$0.90 royalty

Taxodium distichum

Baldcypress

Durable deciduous conifer adapted to colder climates and drier soils than those in its native Southeast. Best planted where it can develop unhindered, as it is naturally a large tree. Amazingly, it thrives from upstate New York to the High Plains of Texas and south to Florida. Lumber is highly prized for its decay resistance. Despite its large stature, its landscape appeal is evident in its lacy foliage texture, which becomes a handsome, distinctive blend of green, yellow and brown in autumn. The shaggy bark and bold architecture of its branches lend striking winter interest. Trouble-free, easy to grow and transplant if root-pruned or containerized.

Taxodium distichum 'Falling Waters'

Falling Waters Baldcypress

A weeping Baldcypress selection that distinguishes itself by its leader growing straight up while the branches droop. Fall color is bronze, and the reddish brown bark peels in strips. Tolerates both wet and dry conditions. Much superior to 'Cascade Falls' because it has an upright tendency as opposed to the groundcover character of the former.

	Re-pot into	Zones 5-10
#1 2-3'	#5	\$17.55 (10)+

Taxodium distichum Lindsey's Skyward™ 'Skyward' PP22812

New

Lindsey's Skyward™ Baldcypress

It's reasonable to call this form the only truly fastigiate bald cypress. Its branches, many and dense, all point upward. Growth seems a little slower in our trial and the trees are very attractive and fill a need for narrow deciduous conifers.

	Re-pot into	Zones 5-10
#1 1-2'	#5	\$16.85 (10)+

Price includes a \$0.85 royalty

Taxodium distichum

Shawnee Brave™ 'Mickleison'

Shawnee Brave™ Baldcypress

Narrow, perfectly upright form; mature size 70 ft. x 18 ft. with minimum leaf litter due to its fine-textured foliage. Lends an aristocratic air to the landscape, especially if several specimens are grouped like sentinels along a water course or pond. Chosen as a runner-up in the 2002 Urban Tree of the Year competition held by The Society of Municipal Arborists.

#1 2-3'	#5	\$18.45 (10)+

Price includes a \$0.85 royalty

TILIA

Tilia cordata

Littleleaf Linden

Usually used as a rootstock, the species is actually quite useful on its own. It's a fast-growing, spreading shade tree with somewhat showy flowers. Very hardy.

	Re-pot into	Zones 3-8
3/16" CALIPER	#1	\$2.80 (50)+
LP21ci 1/4" CALIPER	#3	\$3.10 (25)+

Tilia cordata Greenspire™ 'PN16025'

Greenspire™ Linden

Extraordinary, popular shade tree due to its strong central leader and trouble-free performance in the nursery and landscape. Matures twice as tall as wide, to 50 feet, an excellent replacement for scourge Callery pears with their brittle branches and invasive character. Adapted to soils that may trouble more fussy trees, its mycorrhizal roots lend it this tough constitution. Give it space and let it go!

	Re-pot into	Zones 3-8
#1 2-3'	#5	\$18.05 (10)+

Price includes a \$0.50 royalty

ULMUS

Ulmus americana 'Princeton'

Princeton American Elm

Selected almost a century ago by New Jersey nurseryman William Flemer for its aesthetic merit. By stroke of good fortune, 'Princeton' has demonstrated moderate resistance to Dutch elm disease. Typical of this iconic American species in form and hardiness, it is an important part of the American experience, a relic selection from America's urban forest history, still adapted to its future so many generations later.

	Re-pot into	Zones 3-9
#1	#5	\$16.25 (10)+

Ulmus 'Frontier'

Frontier Elm

Frontier elm is both attractive - red fall color - and useful - moderate size, and disease and pest resistance. Grows with a strong central leader to 40 feet and small leaves.

	Re-pot into	Zones 4-10
LP18ci	#5	\$8.70 (25)+

XGORDLINIA

XGordlinia grandiflora *New*

Mountain Gordlinia

An exciting but seemingly unlikely combination this inter-generic hybrid from Thomas Ranney at NCSU combines the hardiness of Franklinia with the cultural ease of Gordonia. Early white 2 in. flowers, semi-evergreen foliage, and a robust tree-like growth habit make this an exciting new flowering tree addition to the trade. Growing quickly and branching sparsely, nursery training is important to get the best looking small trees in your nursery or Garden Center.

	Re-pot into	Zones 7-10
#1	#5	\$13.55 (10)+

ZELKOVA

Zelkova serrata

Japanese Zelkova

Member of the Elm family but resistant to DED. Older trees exhibit an especially attractive bark. Vigorous in the nursery, these seedlings have been lightly pruned to encourage straight stems.

	Re-pot into	Zones 5-8
MP9ci	#1	\$2.90 (50)+

Zelkova serrata 'Village Green'™

Village Green™ Zelkova

Vase-shaped with graceful, outward-arching branches. Dark orange-red in fall. Somewhat hardier than Green Vase®.

	Re-pot into	Zones 5-8
#1 3-4'	#5	\$20.10 (10)+

Price includes a \$0.50 royalty

XGordlinia grandiflora

Size Guide

Container grown

We remove 30% of the soil from gallon root balls to reduce their shipping weight.
We leave #2 gallon root balls intact and net them for trucking.

Small Plugs:	Medium Plugs:	Large Plugs:

Bareroot

Seedling propagation

We only plant seed in air root pruning containers and bulb trays with artificial media.
Trays are always elevated ensuring pruned roots. Seedlings are harvested in winter
and graded by height or caliper - stem diameter at ground level.

Caliper grading - rootstock

Size	Stem Diameter	3-4' LT BRCH
1/8'	1/8 to 3/16 inch	2 or 3 year field grown
3/16'	3/16 to 1/4 inch	
1/4'	1/4 to 3/8 inch	TR
3/8'	3/8 to 1/2 inch	2 or 3 year transplants

Top 10 Rootstock

Acer palmatum

Carpinus betulus

Cercis canadensis

Cornus kousa var. *chinensis*

Fagus sylvatica

Ginkgo biloba

Hamamelis virginiana

Magnolia kobus

Quercus bicolor

Styrax japonicus

How To Place an Order

Order from our website: www.heritageseedlings.com

- A current availability list is always accessible
- Order forms are available in Excel and PDF documents
- Fill out all required fields
- Once completed send your order forms to **sale@heritageseedlings.com** to be processed

Scan this QR code for easy
access to our wholesale ordering

Call our office:

Tel: 503-585-9835

Fax: 503-371-9688

- Contact us about new orders, order adjustments and inquiries.

Please indicate NO SUB if size substitutions are not acceptable.

The Fine Print

Acknowledgments

- 🌱 We will acknowledge your order soon after you place it. As final harvest grades and counts come in, we will know more accurately what we will ship and call you if there are significant concerns.
- 🌱 We will do our best to match the sizes and quantities in your order. However, **at shipping we may still need to substitute a size smaller or larger than we originally acknowledged unless you specify “no substitutions”.**

Deposits and Payment

- 🌱 If you are on **Pay in Advance (PIA)** terms you must submit a 25% deposit due by December 15th. The balance is due two weeks before shipping.
- 🌱 If you cancel your spring order after January 15th, or fail to complete full payment you may forfeit your deposit.
- 🌱 **PIA** customers prepay for plants and shipping charges are invoiced due on receipt. Despite our experienced judgement on expected UPS charges. Overpayment will be refunded or credited to a future order.
- 🌱 Orders not secured by a deposit will receive lower priority in the event of crop shortage.
- 🌱 No new order will be confirmed if your account is past due.

Credit Policy

- 🌱 Established customers with a record of timely payment, may apply for 30 terms.
To request credit terms, customers must complete the credit application available online or from our office staff.
- 🌱 Verifying credit can take up to 3-4 weeks. Please allow sufficient time to complete this process before your order is scheduled to ship. We will establish a reasonable limit based on your credit needs, the references you provide, and your history with us.
- 🌱 **Credit card payment will incur a 3% surcharge.**
- 🌱 Past due accounts are subject to a 1.5% per month service charge (18% APR). **Any account which becomes substantially overdue will revert to PIA for future orders.**
- 🌱 **A \$25.00 fee will be charged for returned checks.**
- 🌱 **Accounts inactive for 2 years will revert to PIA and will need to fill out a new credit application.**

UPS, Trucking & Pick-ups

- 🌱 To ensure our dormant plants are shipped in optimal condition, we ship from the first week of February until the first week of April. Plants that are shipped or picked up the second week of April are sold without warranty, or guarantee. We recommend bareroot shipments before March 31st. Container grown plants can generally be **picked up** year-round.
- 🌱 We will ship the best way after careful review of weather, plant condition, your delivery flexibility, and freight cost. UPS 3 Day is your most secure delivery investment. If you instruct us to ship by UPS Ground, you must accept responsibility for any plant loss due to plants freezing or spoiling in transit.
- 🌱 Plants taller than 5 ft. must be shipped by truck or picked up at the nursery. **If your order needs to be shipped by your broker or your own truck, please let us know whom to contact.**
- 🌱 We charge \$50 to arrange trucking.
- 🌱 We do not deliver plants.
- 🌱 Set your pickup date carefully, please. Give us at least two weeks notice when scheduling a pickup, and **try to schedule it for Thursday or Friday. Give us a courtesy call if your plans change, please.**
- 🌱 If you do not show up on the pick up date you specify we charge a re-stocking fee of \$200 after 2 days.

Canadian Orders

- 🌱 Phytosanitary Certificate (PC) and export document fee is \$100. PC expires 14 days after issuance. If you delay or request a different ship date after we get a PC for your order, we may have to get a new PC, for which a \$100 additional fee will apply.
- 🌱 Please be certain to include on your import permit that soil/artificial soil mix is permitted; otherwise, you will incur washing fees.
- 🌱 All payments must be made in US funds. Due to lengthy bank processing times, we require wire transfer of funds unless other specific provisions are made. We will work with you to ID what best suits you, and still helps us to get paid on time.

Cancellations

- 🌱 We assemble orders 1 week before the scheduled ship week. Please give us at least one month advance courtesy notice if you need to reduce/change your order so that we can reallocate plants for other clients who may have them back-ordered.
- 🌱 **A major order reduction or cancellation after an order has been staged will incur a 20% restocking fee.**
- 🌱 If we don't hear from you after our final letter, your order will be cancelled and future orders will require a 50% deposit before confirmation.

Closing Comments

Contracting

Have you considered its merits? Although we no longer offer a rebate, contracting your order ahead offers benefits for those whose orders are regularly large. Call us if you need to discuss specifics.

Standing Orders

If there are items you need on an annual basis, we can create a yearly **Standing Order**. We roll them into the next season. That way your order gets priority status.

Visitors

We accept visitors by appointment. You're welcome to visit any time of year. We have several growing locations, and want to be sure you're getting the most out of your time with us, so please schedule your visit. We'll arrange a tour to suit your needs.

Minimum Order

WHOLESALE ONLY. Minimum \$750.

Please order in full bundles (shown alongside prices).

Quality Assurance

Our commitment to you is to grow the best value unusual tree and shrub liners you can find and to deliver them on time. We hope you are especially pleased with your plants' root systems. This should be your immediate impression when you open the box or pick up your order. If it isn't, we want to hear from you as soon as possible so we can address your concerns.

If you take reasonable and prompt care of your plants after delivery and they fail to grow, it's essential you let us know soon. Please contact us within 15 days after delivery. Any discrepancies in counts or shipping damage must be reported within 10 days of delivery to qualify for credit.

Claims: We want to determine the cause so we can make changes to avoid repeating costly mistakes. We'll make every reasonable effort (limited to purchase price) to ensure you are pleased with your purchase and our service. If you feel the plant loss might be on our end or simply want a second opinion, please take some photos and email them in with the quantity and size in question. Bareroot plant claims may not be honored for bare root shipments after March 31st, or for Japanese maples transplanted after that date. Please make every reasonable effort to take delivery before April, and pot them up as soon as possible

Thank You

We so appreciate your continued orders, your trust, and the strong relationship that we've developed with you over many years. Running a nursery, landscape, or garden center enterprise can be an intense experience. Because of YOU we have bright hopes for the future.

If you have further questions or comments, we'd really like to hear from you.

Mark Krautmann,

Has been the mastermind behind growing Heritage Seedlings & Liners from those first Japanese maple seedlings sprouted in pots on the back porch to what it is today. Thanks to his passion for propagation, he pioneered the introduction of *Acer griseum*, *Stewartia pseudocamellia*, *Cercidiphyllum* and other hard to find woodies to the wholesale trade. But I'm not here to boast about Mark's long list of life achievements.

I simply want to express what a kind and gentle-hearted human being this fellow is - a true gentleman who always acts and speaks with his "heart in hand" and aims to ALWAYS "do the right thing." A person who I have the privilege of knowing as my mentor, father figure, brother, and now my business consultant. I dedicate this page to Mark to simply say, "THANK YOU my friend."

Thank you for everything you have done for me and my family. May God bless you and your family and give you an enjoyable and adventurous retirement and a long and healthy life.

- *Octavio Martinez*
